Welcome back to a new season of falling snow and snowmobiling down your favorite trail. Hope everyone has had a good summer. Would you believe in the latter part of August: Mt. Bachelor, Wallowa Lake, and Sun River areas have seen there first dusting of snow? This kind of news gets your blood pumping and causes excitement to dust off the old sled and make it snow ready. The snow didn’t last very long but does get you thinking about a good season of riding.

In the month of April, Peggy, Vera and I attended the Washington D.C. Fly-In, which is attended by approximately twenty three Snowmobile associations throughout the United States. We meet with all our Senators and Congressmen to voice our options on issues affecting our sport and livelihood. This year the main discussion was on Oregon Wild’s push for nearly 600,000 acres of Wilderness designation in the Southern Oregon Cascades. The Rogue Snowmobilers provided us with packets of material and maps with information about Oregon Wild’s Wilderness proposal. We had the opportunity to personally deliver these packets to each of Oregon’s two Senators and five Congressional Representatives. We voiced our option on the Highway Bill (RTP) funding renewal and issues of the roadless area closures. We also attended the National Forest Service Roundtable representing snowmobilers and snowmobiling on public lands. We had the opportunity to state very clearly that all recreation must be considered in the planning. Peggy had the opportunity to have our input on the Forest Service National WebCam.

The annual International Snowmobile Council / American Council of Snowmobile Associations (ISC/ACSA) meeting was held this year on June 11-12 in Corvallis, Iowa. Peggy Spieger, and I traveled to Iowa and attended meetings everyday starting on Wednesday till Saturday from 7 AM till 5 PM. During the week I attended several meetings of Western Chapter, discussing issues affecting our riding areas in our states. One very important issue is in the state of Washington. Washington State Snowmobile Association (WSSA) is in a legal fight with the US Fish and Wildlife (FWS) over the designation of critical habitat for the Canada Lynx. In November 2006 FWS issued its final rule designating critical habitat for the Canada Lynx, only affecting a small piece of land to the north of Lake Chelan and was not being used by snowmobilers. However in February 2009 FWS reconsider its position and issued a new designation which included more than 1,836 square miles in Chelan and Okanogan counties. In addition to Washington, the designation includes lands in Idaho, Montana, Wyoming, Minnesota, and Maine for a total of 39,000 square miles. The designation violates several Federal Laws, that if enforced would make it harder for them to place more restrictions and limiting our access to prime riding areas. In June 2009, WSSA filed suit in the District Court of Wyoming challenging the FWS’s designation based on violation of the Endangered Species Act (ESA).

The OSSA board has been busy this summer. Board members have attended a variety of meetings in various locations around Oregon. I would like to thank the OSSA Board Members for the time and effort they put toward protecting and enhancing the sport of snowmobiling. It is people like these individuals that keep the sport alive. You will find a list of these individuals in the back of this newspaper.

Remember it is election year and many up for election and you need to keep in contact with your local offices and make them think more about what you want as a voter and not what the administration is trying to push. Keep in mind Ron Wyden is determined to expand wilderness areas and Jeff Merkley will go along with Wyden’s thoughts. I would like to remind everyone of the OSSA Convention that will be held in Joseph, January 18-22, 2011. The Wallowa County Gamblers Snowmobile Club will be hosting rides all week long leading up to the convention. There will be more information to come by mail and on our web site of all the activities happening during the week.

Peggy Spieger
OSSA Executive Director

Win! Win! Win! John Gardner & Mt Hood Polaris along with OSSA is giving away a brand new Polaris 120 snowmobile to the OSSA member who signs up the most new members. It’s easy. Sign up a new member, list your name as sponsor, and send the application to your club or direct to OSSA. The person who signs up the most new members by January 22, 2010 will be awarded the 120 Polaris snowmobile at the convention banquet. All current OSSA members you will have 11 opportunities to win. For each new member you sign up 10 new members will have 11 opportunities to win.

For more information contact your district director or call me @888-567-7669.

The Walker Rim Riders are looking forward to receiving their new snow cat. The new Prinoth will be delivered sometime in November so they will be ready for the snow. The 2001 Tucker Sno-cat they had has been completely tuned-up ready for the snow and transferred to the Over the Hill club in Pasley upgrading their equipment. Both clubs are enthusiastic about this change.

The Oregon Cascade Snow Riders have been a small close knit group of dedicated snowmobilers for a number of years holding their meetings in the family atmosphere of Roy & Kristi Moorhouse living room. It is with deep regret that we concede this club to inactive status due to the ill health of Roy. Most club members have joined the Mt Hood club and look forward to participating in that club’s activities continuing their support of the snowmobile community. Our thoughts and prayers are with Roy, Kristi and their family. We wish them well.

The Washington D.C. Fly-in is an annual event in which the snowmobile state organizations of 23 states participate together converging on Washington, D.C. with an agenda of concerns that each club take to their own state elected officials. The ACSA spring meeting was held at this time as well as presentations by other national entities including the Forest Service and other recreational organ-

Central Oregon Snowbusting
by Ron Greb
Bob Davis, Grooming Char- and President of the Over the Hi Snowmobiling Club of Pais- ley and Bob Rose, groomer oper- are shown here with their “new to them” Tucker which they very much appreciate.
Bob Davis has been grooming since the club started in 1995 and has been the inspiration that has kept the club and grooming pro- on track. Bob Rose is Bob Davis’ right hand man. Bob D. on a snowmo- bile along with a rancher and Bob R. in the Tucker went in the res- cue the rancher cow that had been stranded and was sure to die if not rescued. By the time Bob R. arrived the cow, she had already been hoisted by Bob D. and the rancher and ready for loading on the beaver tail. She was strapped down and bought to safety much to the ranchers delight.
Another time, two adventurous skiers journeyed out to Fremont Point. They made it to a cabin but were too weak and tired to get back. They had told a friend where they were going and when they would return. When they arrived we the Lake County Sherrifs office was notified and search was started. The Tucker was found, the Sheriff’s office contacted Bob D. and he told the story of how he and 20 or so snowmobilers came upon the SNO-Cat, so it will be ready for the coming seasons.
In July, the Snowbusting held a summer carnival for the Cande- lighters of Central Oregon. The event was held at the Kessler home near LaPine and approxi- mately 40 people attended, including families with children who have cancer. Mem- bers of the Snowbusting and the Lodgodge Dodgers assisted in making the event happen. Spe- cial thanks to the Kesslers for providing a GREAT place to hold this event, and also to all who contributed the time, food, and prizes for these children and their families! We all had a great time playing games, participating in a treasure hunt, checking out the boat and cars, as well as enjoying the dinner. Everyone had a great time and it was dark as they headed out. Because of a very heavy snowfall, they were unable to break through to the skiers that night. The next morn- ing, a change in the weather allowed them to make it through to the cabin the skiers had stayed at the cabin and were very glad to see the Tucker breaking through to them. They loaded up the very thankful skiers and delivered them safely. I have just one more story about Bob R. He broke two crosstubes on the track and had succeeded in replacing one of them. He was working on the second when tow snowmobilers came along. Without hesitation they finished the job and put up the tools. Bob R thanked them for the help and they were gone. He didn't know them but was very thankful for the help.
There is one thing I have not mentioned and that is Bob R is disabled. He has very limited use of his legs. His faithful dog Shiloh is always with him. Since Bob R cannot walk, he is on his 4 wheeler or the Tucker. He has over 9000 miles on his 2 year old 4 wheeler. I have ridden many times at Paisley and have always found their trails to be great. I encour- age all of you to try this area. You will find some of the most beautiful trails in Oregon. There is a motel in town or you can stay in the lake and go riding here and run into the lake. We also have a delicious dinner and say thanks. Bob Davis can be reached at 541 943 3424. He can tell you the snow trail conditions and even set you up for a guided tour.

Over the Hill Snowmobiling Club of Paisley

Lane County’s

Making Snow Better for All of Us.
by Inez LeBlanc

The temperatures are flirting in the 90’s but the days are getting shorter and the nights cooler, so maybe we should take a second and think of our winter activities. November will be here in a blink of the eye and with it our kick-off dinner and festivities celebrating yet another season of snowmobiling. How lucky we are to live in this beautiful part of the country and to be able to enjoy the sport and beauty of the mountains on our snowmobiles.

The Sisters Sno-Go-Fers would like to thank all of you who support our club. We are a grooming club whose volunteers groom the Three Creek area, one of the most beautiful and diverse trail systems in Central Oregon. Our volunteers are just that, unpaid volunteers who give of their time and expertise to enhance our enjoyment of snowmobiling. Your monetary support and your input are necessary to keep our club functioning. It is also time for our yearly dues which are so very important to keep our club up and running. Our dues are $15 this year. I hope you will be able to join us this season on the snow. Our rides are not for the faint of heart. I am speaking of past experiences viewing the side of the mountain upside down. Riding with our club I know there will be someone who will find me if I am lost, dig me out if I am stuck, and push me to limits I might not try on my own. We have fun, each and every ride is a learning experience so come join us on the snow.

Our first meeting was at the home of Virgil and Inez LeBlanc. It was a hamburger BBQ and as you can see from the pictures, the fellows had their heads down and their elbows up participating in all the wonderful eats. It was a me first attitude on the guys part so us gals just sat back and waited for the feeding frenzy to subside so we could have our turn!

I would like to thank all of you who have sent me their email address to enable our club to go paperless and save money on stamps and supplies. You can view our club schedule of events at calendar.yahoo.com/sisterssnowgofer if you have problems receiving the emails from the club please contact me at inez.leblanc@bendcable.com or john.snowrider@gmail.com

Our schedule for the 2010-2011 season is set except for the date of the kick-off dinner so please keep an eye out for a definite date in the next newsletter.

Happy Trails

The Chill is in the Air!

My goodness where do I start, it seems like all kinds of things have been going on since our club banquet.

Four Mile Shelter

Well first I would like to inform you that we have finally worked out the details in acquiring the storage shed at Four Mile Lake.

MID (Medford Irrigation District) has released ownership of the building to the FS, and we are currently working on a MOU (Memorandum of Understanding) which in sort means the club will help maintain the warming hut, and do small upkeep and stock it with winter wood.

On July 24 George Gregory, Christopher Bosvin, and myself made entry into the shed and removed all the contents that belonged to MID. I then transported the materials to the Medford yard on July 30th. The shelter surprised us all with a concrete floor, and area inside is larger than thought.

We are working on drawings to show the Forest Service what modifications we would like to do and get approval. We also have a wood stove ready, thanks to Drew Langley for his generous donation. We will be setting up some work parties to do some minor maintenance, stove installation, and modifications to get it ready for the winter season. And of course collect the firewood so it will be ready for use this season.

There is plenty of downed wood around the lake for easy pickings.

Warming Huts

As the fire danger lowers, we will need some help in clearing the trail to make sure they are full of wood and ready to go. Again I will notify you when and if we need some assistance in collecting wood and using the club splitter to stock them back up. This will include the Big Meadow warming hut, Four Mile Lake warming hut, Help with Brown Mountain if needed. And will also help out our friends in Cal at Door Knob and Four Corners Snow Park.

Dues are Due Again!

Next Club Dues are due so please don’t delay in renewing your memberships. This expedite getting your club cards back and having insurance coverage from OSSA for any summer/fall and winter activities. Plus it helps our Club!!

The dues cover this season from July 1st 2010 to June 30th 2011.

Trail Cleaning Equipment

We have acquired a piece of equipment for our trail cleaning arsenal. Dobby Griffen and Scott Blower have worked very hard together in obtaining a flail machine. This is a enclosed tractor with a boom out in front of it that has a shredder on steroids, that can chop down trees and shed off the branches or heath.

Those of you that have helped on trail cleaning projects, using poles, saws, hand and chainsaw this is a blessing doing that hard work for us. Dobby and Scott were able to demo it out in the woods before its purchase, but currently with the fire danger it will wait until conditions improve and then we plan to put some miles on it. It was purchased for $18,500 and another $2,000 was put into the trailer modifications to transport the equipment.

I think we will see a fast return on investment for this equipment. OSSA also Was able to Purchase a new groomer for the Walker Rim Riders a Crescent lake Club at the cost of $250,000. With the ten year rotation we will be up for a new snowcat in 2012. We will let you know when we get ready to put it back in use, we will need some help like drivers in front and behind directing traffic and other light assistance. I am extremely excited about this addition for our trail cleaning needs.

Fund Raisers

We have been busy with a couple of fund raises this summer that Erin & Kirk Cunningham, Diane Cullen, Debbie Greenleaf and I worked the Third Thursdays down on Main Street selling Snow Cones again this year. We participated July 15th and August 19th in which we have raised over $400. At a $1.00 each that’s a lot of snow cones. Will see how September weather holds out for the last one.

I have also received the club stickers, and have included a full scale copy of in this news letter. This is also to raise funds for the club, so please be generous and buy two or three for your truck, trailer, car, I am selling these for $5.00 each. And hope to see them all over town advertising for the club.

Thanks Again for all of your Support and hope for a great season with lots and lots of snow.

Bruce Cullen

THANK YOU FOR YOUR SUPPORT!
Press Release-IMSA Grant Program

Snowmobile Manufacturers Enhance ISMA Grant Program

HASLETT, MI, AUGUST 31, 2010: The members of the International Snowmobile Manufacturers Association, Arctic Cat, BRP, Polaris, and Yamaha, announced at the International Snowmobile Congress held in Iowa in June 2010 that the ISMA Grant Program for excellence will continue.

The objective of the program is to provide money grants, to state and provincial and/or territorial snowmobile organizations that are members of the American Council of Snowmobile Associations (ACSA) or the Canadian Council of Snowmobile Organizations (CCSO), for specific program activities. The ISMA Grant Program awards grants for the following categories of work:

- The promotion of a successful Go Snowmobiling Campaign. The promotion can consist of TV, Radio, and/or internet promotion of snowmobiling directed at non-snowmobilers, or influencers who can impact on snowmobiling. The effort can also entail taking individuals for organized snowmobile rides supported by media coverage for the event. Events and activities supporting the Go Snowmobiling theme are numerous and encourage thoughtful creativity.
- Events and activities supporting the ISMA Grant Program will again support actions that improve or maintain land access for snowmobilers. This includes, but is not limited to: participation in lawsuits or public conversations protecting land access, and educational efforts emphasizing smart riding behavior so that snowmobiling will be able to expand or continue in specific riding areas.
- The producers grant program historically has supported the updating of Economic Impact studies and will continue to do so. Economic Impact Studies showing how snowmobilers impact the economy in a positive way by generating jobs, taxes, and economic activity to a region are very important. Many organizations have conducted excellent Economic Impact Studies, usually using a University and or a local or state/provincial agency with economic analysis background. Avalanche Awareness and related safety training are again “top of mind awareness” issues for the manufacturers. Programs designed to promote avalanche safety and awareness will be strongly considered by the manufacturers committee.
- Strengthening and expansion in membership and/or retention of membership is recognized by the manufacturers as a very important issue that is eligible for an ISMA Grant. Snowmobile organizations are competing for the customer dollar and the manufacturers grant program supports the associations efforts in growing their association business and membership.
- ISMA Grant applications are available through the ACSA or CCSO office and must be submitted to the ISMA office by October 1, 2010. The snowmobile manufacturers Grant Review Committee carefully reviews the grant applications and awards them to the organizations based on the thoroughness and thoughtfulness in the application which must include careful planning and support from the membership and other business/government related entities.
- Grant Checks are issued from the ISMA office to the associations in early November 2010.
- Details of the grant application are contained within the application, which is available through the ACSA Office, CCSO Office or through the ISMA Office.

This is the 10th year of the ISMA grant program, which has successfully supported hundreds of worthwhile projects, serving snowmobilers throughout North America. Over $2 million dollars worth of research and promotion has been attributed to the ISMA Grant Program.

-Tollgate Trailfinders

by Ken Miles

Another season is fast approaching; we had a GREAT turnout for the summer work party getting Bone Springs ready in a single day for another busy winter. We had people out on quads clearing trails and putting up trail markers. It’s amazing that since we started having a BBQ potluck lunch the turnout has been fantastic, making quick work of our summer to do list. Here are few items on the schedule for the fall.

October 2—5 pm Board Meeting only (no potluck and no general meeting)

November 6— Board Meeting 5pm General Meeting 6pm Potluck - after the general meeting

November 13 or 20 Kids Safety class 9 am to 4 pm bring a lunch.

See below for more information at a later date

Updates to our schedule can be found at either http://www.tamrackinbb.com/weather.htm just scroll down to the TTF newsletter section. You can also visit us on Facebook just search for Tollgate Trailfinders.

September 2010
Back by popular demand; Announcing Year 2 of the Ski-Doo® Million Dollar Club Support Program

BRP and Ski-Doo® dealers are proud to present:

THE MILLION DOLLAR CLUB SUPPORT PROGRAM

BRP understands that the heart of the snowmobiling community is its volunteers. BRP was there at the beginning when the trail network was being built. After having given $720,000 to snowmobile clubs in 2009, BRP will once again contribute to the sport, it’s heritage. For each snowmobiler who fills out and drops off this certificate at a Ski-Doo Dealership of their choice between September 1st, 2010 and November 15th, 2010, BRP and its dealers will donate $10 cash to the member’s club. Plain and simple. Each snowmobile club is eligible for a total Ski-Doo donation of up to $1,500 in cash (150 members x $10 = $1,500) paid directly to clubs by BRP and Ski-Doo dealers, upon program completion. But that’s not all... Each club could also qualify to win a Ski-Doo® MXZ TNT or Summit Everest E-TEC snowmobile if you achieved the maximum of $1,500! That’s right, 2 units in the USA and 2 in Canada will be given out. The Club in each of the regions: 1 for each region Canada East and Canada West, the same for USA) having obtained both the maximum amount of $1,500 and a minimum of 75% participation rate, will be eligible for the Ski-Doo® MXZ TNT or Summit Everest E-TEC. The Club in each region with the highest participation rate will receive the snowmobile to use for their own fundraising purposes. Hurry! Drop off your certificate at your nearest Ski-Doo dealer. You clubs will thank you for it! * For more details, visit www.ski-doo.com

How does the Ski-Doo Million Dollar Club Support Program work?

BRP will be extensively advertising the program this fall through various media such as direct mail, snowmobile magazines, website campaign, www.ski-doo.com, the fall shows and www.theultimateplayground.com. The advertising pieces will include a Club Support Donation Certificate that, when filled out, and dropped off at a Ski-Doo dealership by a club member between September 1st 2010 and November 15th 2010, the certificate will entitle each club to a $10 cash donation from BRP and Ski-Doo dealers. Snowmobile clubs are eligible for a total Ski-Doo donation of up to $1,500 in cash (150 members x $10 = $1,500) paid directly to the clubs by BRP and our dealers upon program completion. But that’s not all...

Each club could also qualify to win a Ski-Doo® MXZ TNT or Summit Everest E-TEC snowmobile if the club achieves the maximum of $1,500! That’s right, one Club in each of the regions of the East and West (East = Connecticut, Illinois, Indiana, Iowa, Maine, Massachusetts, Michigan, Minnesota, Nebraska, New Hampshire, New York, North Dakota, Ohio, Pennsylvania, South Dakota, Vermont, Wisconsin); (West = California / Nevada, Colorado, Idaho, Montana, Oregon, Utah, Washington, Wyoming), having obtained both the maximum amount of $1,500 and a 75% participation rate, will be eligible for the Ski-Doo® MXZ TNT or Summit Everest E-TEC. The Club in each region with the highest participation rate will receive the snowmobile to use for their own fundraising purposes.

So what’s the payoff… by participating in the Ski-Doo Million Dollar Club Support Program, the clubs could earn:

$1,500 cash
A Ski-Doo® MXZ TNT or Summit Everest E-TEC, a retail value of $10,599 USD (MSRP) for the MXZ and $10,849 USD (MSRP) for the Summit
How much the club benefits from the Ski-Doo Million Dollar Club Support Program is up to you. So get started today to plan your participation and club mailer. Call your local BRP dealer to discuss ways to promote the program and maximize program benefits. For more information, please visit www.ski-doo.com

Thanks for your cooperation and assistance!
